Ralph Long IV

Atlanta, GA | 404-626-0840 | RalphLongIVatl@gmail.com | linkedin.com/in/ralphlongiv | github.com/Rlong778

Objective

Computer Engineering student at the Georgia Institute of Technology seeking to apply a background in research, technology operations, and community leadership toward hands-on software and hardware engineering opportunities.

Education

Georgia Institute of Technology | Atlanta, GA *August 2026 – Present*
Bachelor of Science in Computer Engineering, John Mathers Honors Program; Expected Graduation, May 2030

Benjamin E. Mays High School | Atlanta, GA *Graduated May 2026*
GPA: 4.0; Engineering Pathway, Computer Science, and Performing Arts (Advanced Band); IB Candidate
AP Coursework: AP Lang, AP Calculus, AP Seminar, AP Biology, AP Pre-Calculus, AP Government, AP US History

Skills

Programming: Python (Streamlit, Pandas)
Research & Data: Data collection, data analysis and visualization, scientific research methodology
Software: Microsoft Office, Google Workspace, video production/editing
Communication: Technical presentations, onboarding & training content development

Experience

City of Atlanta Information Management Office | Atlanta, GA *June – August 2026*
Intern, Atlanta Summer Youth Employment Program (SYEP)

- Selected for the City of Atlanta's Summer Youth Employment Program (SYEP), a competitive placement connecting Atlanta youth with municipal government offices
- Produced an employee onboarding introduction video used to orient new hires to office procedures
- Supported day-to-day office and employee records management, including document processing and secure records disposal

Project ENGAGES | Georgia Institute of Technology, Atlanta, GA *July 2024 – April 2026*
Project ENGAGES Scholar

- Completed a 15-hour/week paid research internship across two Georgia Tech labs, working alongside graduate students on college-level research projects
- Conducted cervical cancer research in the Robles Lab (Parker H. Petit Institute), preparing and imaging samples under a microscope; advanced to state-level competition
- Conducted polymer research in the AM2 Lab, advancing to the regional level of competition (see Projects)

Projects

Box Office Data Dashboard | Python, Streamlit, Pandas *Fall 2026*

- Built an interactive web app in Python with Streamlit to analyze and visualize box office data for 1,000 films spanning 30 years
- Cleaned, filtered, and aggregated revenue data using Pandas to identify box office trends across three decades
- Designed interactive charts and tables with user filters so visitors can explore box office records dynamically

Self-Driving Lab for the Discovery of Novel Polymers | AM2 Lab, Georgia Institute of Technology *2024*

- Wrote Python scripts to process and visualize tensile strength data from mechanical tests of newly developed polymer materials
- Contributed 15 hours/week to a self-driving lab effort to accelerate polymer discovery; advanced to regional-level competition

Leadership & Activities

Mays Raiders Marching Band | Trumpet Section Leader *August 2022 – May 2026*

- Nominated by Band Director to represent Atlanta Public Schools in the 2024 District Honor Band

Trees Atlanta | Junior Counselor *May–June 2022, 2023*

- Managed safety for children biking along the Atlanta BeltLine and coordinated parent pick-up/drop-off logistics; completed 75 hours of community service

Awards

Star Student, Graduating Class of 2026 • Governor's Honor Nominee (2024) • Principal's List, Freshman & Sophomore Year • Google Scholar (2023) • C5 Leadership Summer Camp Georgia Student (2021)

Interests

3D printing, guitar, cooking, and reading
